

AISHWARYA SUBHASH SUVARNA

EDUCATION

SIES College of Management Studies

M.C.A. - Computer Applications — CGPA: 7.75/10.00

2021 - 2023

Navi Mumbai, India

Vidyalankar School of Information Technology

B.Sc. - Information Technology — CGPA: 7.43/10.00

2018 - 2021

Mumbai, India

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Node.js, Java, Dart, HTML, CSS

Frameworks & Libraries: Angular, React, Flutter, Spring Boot

Database Management: MySQL, MongoDB, Microsoft SQL Server

Tools & Platforms: Git, Bitbucket, NetSuite, Pentaho, RESTful API Integration

PROJECTS

Seeker-Search Engine

19 Sep, 2022 - 16 Dec, 2022

Developed and executed a comprehensive web scraping strategy to gather data from websites, resulting in a database of structured information for easy access and retrieval. Led a team of 3.

Technology stack used: Python , Flask , ReactJS , HTML , CSS

APT - Your Personal Trainer

15 Jun, 2022 - 21 Aug, 2022

Developed an app that utilizes single-person pose estimation to assess exercise effectiveness. Worked in a team of 3.

Technology stack used: Dart, Android Studio ,Machine Learning

WORK EXPERIENCE

Jr. Technical Consultant – Ventus Infotech Pvt. Ltd. (Softtype Inc.)

Nov, 2023 – Aug, 2025

- Worked extensively on NetSuite customization using SuiteScript (2.0), developing Client Scripts, User Event Scripts, Suitelets, and Map/Reduce scripts to tailor the system to business requirements.
- Designed and deployed advanced PDF/HTML templates for transactional records (Invoices, Purchase Orders, Receipts), enhancing print and email outputs with structured layouts and tax breakdowns.
- Built custom workflows and field-level scripting to automate record updates and validations, ensuring improved accuracy and reduced manual intervention.
- Developed integration solutions to connect NetSuite with third-party systems using RESTful APIs, enabling real-time data synchronization and external data ingestion.
- Implemented a Flutter-based mobile application that communicates with NetSuite via secure POST requests, allowing mobile access to essential features and improving user convenience.
- Optimized legacy scripts and Suitelets for better performance and maintainability, leading to faster load times and a more intuitive user experience.

SDE Intern – CRISIL Ltd.**Jan - Jul, 2023**

- Registered and deployed reports in the frontend BI platform for UAT, ensuring smooth functionality and user-friendly interface.
- Developed and streamlined data analysis procedures, achieving a 20% reduction in processing time.
- Developed and implemented an Angular project based on wireframe designs, incorporating a drill-down method for each selected category, resulting in improved user engagement and data visualization.
- Created and designed report tables with specified filters and validation, implementing innovative visualization techniques to present data.
- Identified and resolved complex frontend issues in the UAT platform.

CERTIFICATIONS

Foundations: Data, Data, everywhere by Google**28 Sep, 2021**

Aggregate: 97.28 / 100.0

Key Skills: Spreadsheets, data cleansing, data analysis, SQL, data visualization, and analytical skills using tools like spreadsheets, SQL, R programming, Tableau.

The complete 2023 web development bootcamp by Udemy**30 Aug, 2023**

Key Skills: Web development technologies and tools, including HTML, CSS, JavaScript, Node.js, React, MongoDB.

Introduction to programming in Python by Microsoft Technology Associate**20 Jan, 2020**

Key Skills: Python programming for operations using data types, operators, control flow, modules, and tools like Raspberry Pi, Arduino.

NTEL Online Certification on Cloud Computing**Jul - Oct, 2022**

Aggregate: 68% [Elite]

Key Skills: Cloud computing architecture, security, resource management, and data management.

EXTRACURRICULAR

Deepshika, A Trust for Cancer Care**4 Feb, 2023**

Participated in a Cancer Patients' Support Walkathon
